EDUCATION

The University of Washington 2024 - Present | Expected June 2028 **Seattle, WA**
B.S. Computer Science, B.A. Philosophy: Ethics
Coursework: Data Structures, Systems Programming, Hardware/Software Interface, Embedded Systems, Program Management

WORK EXPERIENCE

Teaching Assistant | CSE 589: Software Entrepreneurship **Seattle, WA**
University of Washington September 2026 - Present

- Mentor ~8 student teams through startup development, providing feedback on product ideas, technical decisions, and weekly venture pitches.
- Support teams in preparing for end-of-quarter presentations to venture capitalists, with the goal of securing follow-up meetings and advancing their ventures.

Undergraduate Research Assistant | Exposures & Health Team **Seattle, WA**
NHERI RAPID - Natural Hazards and Disaster Reconnaissance January 2026 - Present

- Deployed and configured a network-attached storage (NAS) system to centralize research and field data.
- Implemented SampleServe for field-sample tracking during disaster reconnaissance, developing SOPs and training staff to support adoption.
- Supported the Spokane wildfire deployment by documenting and organizing field samples through standardized digital workflows.

Network Operations Intern **Seattle, WA**
University of Washington Information Technology January 2025 - June 2025

- Configured and deployed 30+ Juniper switches across 15+ campus and medical buildings during UW's tech refresh cycle, ensuring secure connectivity for faculty, hospitals, clinics, and research facilities.
- Installed and replaced network hardware (rack mounting, cutovers, firmware upgrades) while coordinating with cross-campus IT teams.
- Diagnosed and resolved network outages across enterprise-scale environments using SSH/iTerm, UW Connect, and SolarWinds.

PROJECTS

Nurture | Tech Startup (Software Developer) · GitHub Repository **Seattle, WA**
University of Washington January 2026 - March 2026

- Developed the frontend of an AI-powered companion app for an infant safety wearable, using AI-assisted development tools as part of a 10-person cross-functional team.
- Conducted customer discovery and product research to identify the product wedge, refine positioning, and guide development decisions.
- Presented product iterations and market strategy to instructors and venture capitalists, culminating in live product demonstrations and funding review.

SKILLS

Networking: Juniper, VLANs, SSH, SolarWinds, UW Connect
Programming: Java, C, C++, Python, JavaScript, HTML/CSS, x86 Assembly
Tools: Git, GitHub Actions (CI), Microsoft Office (Excel), LaTeX
Languages: English, Spanish (Bilingual)

LEADERSHIP & AWARDS

Engineering Design Coach **Seattle, WA**
University of Washington September 2026 - Present

- Train students on makerspace equipment, safety procedures, and design tools, providing hands-on technical support.

Nordic Scholar **Stockholm, Sweden**
Nordic Scholars Leadership Institute September 2026

- Selected for a fully funded international leadership institute in Stockholm focused on collaboration, sustainability, innovation, and governance.
